

International Laboratory Services

Food Division Services

Allergen Testing

Experienced in food testing for over 30 years, ILS has gained a vast knowledge and technical expertise within the field of Food Testing. As such our purpose built laboratories are amongst the most impressive, single site, contract testing facilities in the UK.

Since late November 2005, food labelling regulations in the UK and Europe have insisted that allergens deliberately added to pre-packed food and food products must be labelled with allergen information.

ILS can provide a full range of food allergen testing, whether it is in finished products, raw materials, rinse waters or environmental swabs.

Testing is conducted on the following list of allergenic foods:

- Cereals with Gluten
- Crustaceans
- Eggs
- Fish
- Soyabeans
- Milk
- Celery
- Lupin
- Molluscs
- Mustard
- Sesame
- Sulphur dioxide / sulphites
- Peanuts
- Nuts
 - Walnut
 - Cashew
 - Brazil
 - Pistachio
 - Queensland
 - Macadamia
 - Pecan
 - Almond

Our prices are competitive and quality of service is second to none.

Other services offered by ILS are; **Food Microbiology and Food Chemistry.**
