

International Laboratory Services

Pharmaceutical Division

Pharmaceutical Chemistry Testing

With continued investment and expansion in the pharmaceutical chemistry laboratories we are able to respond to the increasing demand for outsourced pharmaceutical testing.

ILS has the enviable reputation of being one of the finest equipped and most professional contract testing facilities in Europe.

Highly experienced in pharmaceutical testing, method development, validation and transfer, the laboratories are MHRA and FDA inspected for GMP compliance and are able to offer a complete range of Pharmacopoeial testing covering raw materials, water testing, intermediaries and finished products.

Our testing capabilities include:

- Storage Stability Trials to ICH Guidelines
- Tablet / Suppository and Pessary Testing
- Residual Solvents including: Ethylene Oxide, Glycol and Chlorohydrin Testing
- Uniformity and Conformity
- Drug Purity
- Active Ingredients Content
- Related Substances
- Water Testing

With extensive experience in ICH storage stability trials, our dedicated laboratory comprises of three 10,000 litre walk-in humidity rooms, a 7000 litre walk-in cold room and freezer and a variety of humidity cabinets which can be set at customer specific conditions.

Instrumentation includes eight GC systems, seven HPLC's, two UV/Vis Spectrophotometers, A.A, TOC, GPC and numerous other specialised equipment.
